

Elder David Wise delivers this message on unconditional election from the vantage point of Jesus Christ's choice of a bride to wed. Election is not simply a cold, impersonal choosing of a people by a sovereign God. On the contrary, the doctrine of election is actually the greatest love story ever told - it portrays the eternal romance of Jesus Christ and His bride, initiated by Christ's choice to love His beloved and finally culminated with the consummation of the marriage at the marriage supper of the Lamb.
