As the world changes around us, upgrades in technology make new forms of reaching people with the same, sweet gospel possible. In early 2017 at Flint River, we've begun broadcasting our sermons in via Facebook live and posting them after the fact. This has been beneficial in many ways, as it enables sick folks miss church to watch the sermon and it allows for others to hear an additional sermon each week. Plus, people in the community get a window into our services.

This week, we launched a new video ministry under the March to Zion "umbrella," a videocast called MTZ Cast. The format will be similar to a live radio program in that it will be less formal, off-the-cuff, conversational, unedited, etc. I hope to include visiting ministers as guests from time to time. Concerning content, we'll consider doctrinal issues and occasionally, current events. Presently, we're considering the Articles of Faith.

You can find these at both the Marchtozion Youtube channel and Facebook page, so be sure to subscribe and follow both!

Here's episode 1: [MTZ CAST | Episode 1 | True and Living God](#)
