---

Hi! I am currently trying out a new template for MTZ.

Since we recently upgraded our content management system, I have the ability to try several templates until I find one that is "just right."

This current one (8-23-2010) is a break from the traditional blue look. Will it be permanent? I don't know. However, it is the look for next few days/weeks.

Leave me a comment and let me know what you think.
