While reading this morning I ran across an excellent quote that I thought I would share with y'all.....

"I have no sympathy for, nor patience with, the statement that the church is just what the Lord would have it be, and that His ministers are doing just what is best, and according to His expressed will in regard to serving the church. Such statements make void the record of the scriptures in which the Lord reproves His people for neglecting His service and turning away from His altars. It is a rejection of the scriptures to say that it pleased the Lord for His ancient people to turn after idols instead of serving the true and the living God." -Elder Walter Cash, Support of the Ministry, August 15, 1917
